TEAMS

About this Rulebook

This rulebook sets out how the Sequence tournament is played, scored, and decided. Eight teams compete across a three-day league stage, after which the top four advance to the Semi-Finals and, ultimately, the Final. Every player and team is expected to read and abide by these rules.

① Tournament Pathway

The field of eight narrows to a single champion through three stages, as shown below.

② League Stage

The teams have been divided into 2 groups. Each team will play one match on Day 1, Day 2 and Day 3. The points earned by each team will be recorded after every match..

③ League Standings

- The top two teams from each group will qualify for the Semi-Finals.

④ Semi-Finals

- The team which completes 2 sequences will advance to the final. In case of a tie, we will play sudden death. The first team to make a sequence will advance to the final.

⑤ Final

- The team which completes 2 sequences will be the champion. In case of a tie, we will play sudden death. The first team to make a sequence will be declared the Tournament Champion.

⑥ Points System

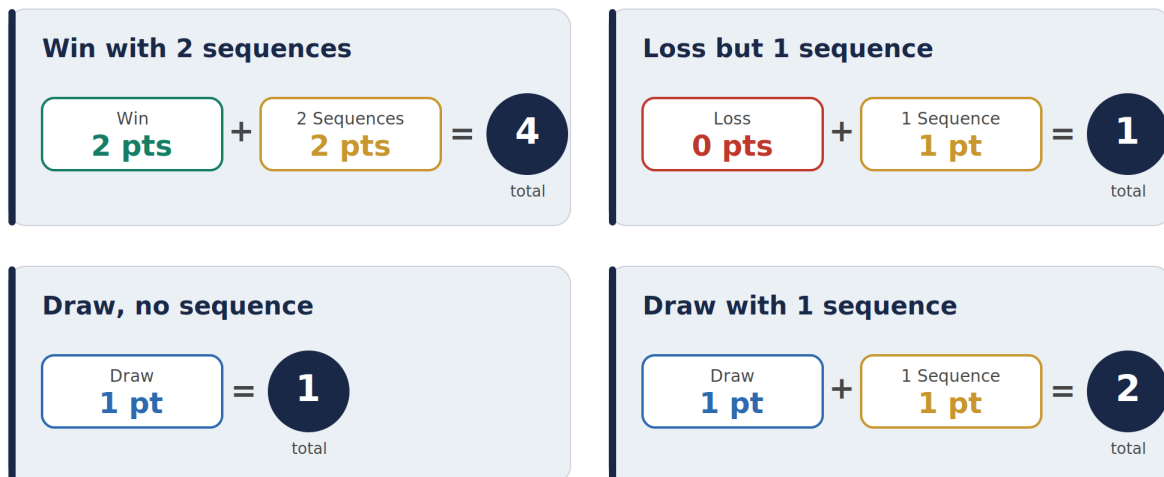

Points are awarded per match as follows. Sequence bonuses stack on top of the match result.

WIN	DRAW	LOSS	SEQUENCE
+2 points	+1 point	0 points	+1 point

Result	Points Awarded
Win	2 points
Draw	1 point
Loss	0 points
Each completed sequence	+1 point (added to the above)

⑦ Scenarios

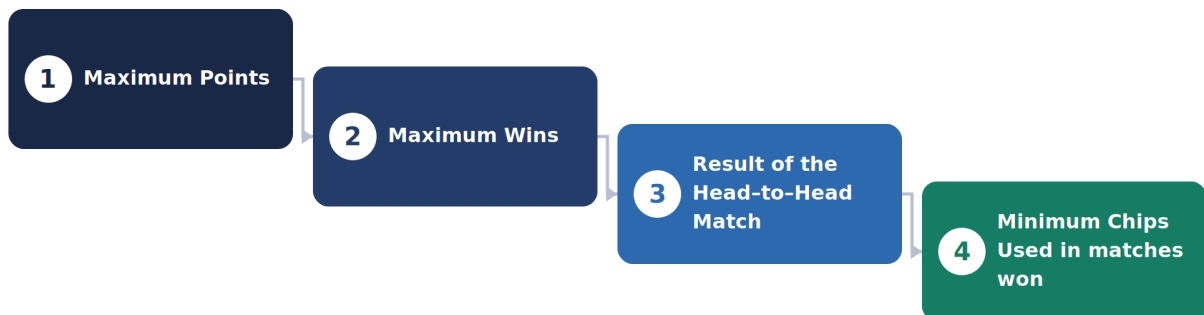

Worked examples showing how match results and sequence bonuses combine.

**REMEMBER**

Sequence bonuses are always added to the match result — so a team can earn points even from a loss, and a draw with a sequence outscores a plain draw.

⑧ Criteria for Team Ranking

When teams are level on points, the following tiebreakers are applied in order, moving to the next only if a tie remains.

Applied in order — move to the next criterion only when teams remain tied.

1. Maximum Points.
2. Maximum Wins.
3. Result of the Head-to-Head Match.
4. Minimum Chips Used in matches won.
